VOLUME XXXIV NO. 16

CROSSFIELD, ALBERTA, CANADA, THURSDAY, MARCH 14TH 1940

5 CENTS A COPY

Esteemed Pioneer Citizen Passes

Death called one of Crossfield's oldest old-timers early last Monday morning, March 11, when Mrs. Ann Eliza O'Neill, wife of J. H. O'Neill, passed away at the family home after a very short illness.

Ann Eliza Rowse was born on July 30, 1862, at Hartsfield, Ontario. On Sept. 18, 1882, she was married to John Hillyard O'Neill and they lived at Hartsfield until coming to Crossfield. Almost thirty-six years ago they moved west, arriving here on April 29, 1904, and took up a farm southeast of town where they have lived ever since. They celebrated their golden wedding anniversary in Sept. 1932.

The late Mrs. O'Neill was of a quiet disposition, devoted to her home and family. During the days of pioneering and down through the years she proved herself a kindly neighbor and friend, and she will be missed by a wide circle of friends.

She leaves to mourn her loss, her husband; five sons, James R. of Big Prairie, Garnet and Kenneth of Crossfield, Hillyard M. at Milo, and Ivan at Creston, B. C.; three daughters, Mrs. Frank Ruddy of Crossfield, Mrs. C. J. L. Lawrence of Powell River, B. C., and Mrs. F. R. Snell of Toronto; 22 grand children and 12 great-grandchildren.

Funeral services were held in the United Church on Wednesday afternoon, conducted by Rev. A. D. Currie of the Church of the Ascension, assisted by Rev. S. R. Hunt, and was largely attended. The numerous floral tributes bore silent testimony to the high esteem in which the deceased was held in the community.

The pallbearers were: Mr. McIsaac of Calgary, E. Meyers, Wm. Laut, S. Willis, A. Adams and G. Ainscough. Interment was in the local cemetery.

From the outbreak of the war Great Britain has purchased 79 million bushels of Canadian wheat at a cost of approximately \$65,500,000. Australia has sold the U.K. 68 million bushels in the same period.

COMING EVENTS

The Native Sons and Daughters will hold a Leap Year Novelty Social in the Masonic Hall Wednesday March 27. Everybody welcome. Ladies provide. 16-2-0

The March meeting of Floral U.F.W.A. will be held at the home of Mrs. J. Aldred on Wednesday, the 29th, at 2:30 p.m.

The Crossfield United Church Choir is presenting "The Gallies" a sacred Cantata, on Good Friday, March 22nd, at 8 p.m. A welcome to all. Silver collection.

Miss Teresa Seigal, noted elocutionist, will give a rendition of "The Wife of Pontius Pilate", at the United Church service at 7:30 p.m. on Easter Sunday. Miss Seigal needs no introduction to Crossfield audiences as she previously presented "The Three Godfathers" here. You are cordially invited to attend.

Curlers Play-off For Oyster Supper

It takes a lot of mild weather to kill the bug of enthusiasm in the local curlers. Early last week it looked as if curling was over for the season. However, towards the end of the week the weather turned cold again and Saturday night found the annual contest of President vs. Vice president point play-off reaching its conclusion. When the scores were tallied up, Vice-president Fleming's side was ten points behind and, according to usual custom, will have to provide the oyster supper.

President	vs Vice-president	Points
C. Fox	P. H. Fleming	4-8
C. H. McMillan	C. Becker	10-9
H. R. Ballam	W. Stralo	16-4
M. N. Jones	L. Parsons	9-8
C. Purvis	A. E. Edlund	8-7
McGregor	J. Hesketh	4-15
R. Ontkes	G. F. Purvis	13-3
	Total	64-54

Lady Curlers Win At Carstairs

Crossfield ladies made a fine showing last Monday when they won three prizes in the ladies' one-day bonspiel at Carstairs.

Miss Murdoch and Mrs. Stevens met in the finals of the Birks' event, Mrs. Stevens winning by one point with an 11-10 score. Personnel of the rinks: Mrs. Stevens (skip), Mrs. G. Dawson, Miss P. Waterhouse, Miss L. Robinson; Miss M. Murdoch (skip), Miss I. Hesketh, Miss K. Fitzpatrick, Miss A. Cameron.

Mrs. Stevens' rink reached the finals in the Eaton's event but lost out to Mrs. Goodfellow of Carstairs, 9-4.

ENGAGEMENTS

Mr. and Mrs. J. P. Methal of Crossfield announce the engagement of their daughter Gladys Irene, of Drumheller, to Wallace W. Donaldson, son of Mr. and Mrs. J. B. Donaldson of Victoria, B. C. the marriage to take place in March.

New license plates will be available for Easter according to an announcement from the provincial secretary's department last week. Forms are being mailed out and licenses will be sent out immediately if the forms are returned. The new plates have an orange background with black letters.

Local Rebekahs Attend Assembly

The Alberta Rebekah Assembly is being held in Calgary this week, with a number of local Rebekahs attending, including Mrs. C. Fox, Past President of the Assembly, Mrs. Mary Green, P.N.G., is the local delegate. Several carloads of ladies motored in Monday and Tuesday evenings to attend the degree competition.

Dr. E. P. Scarlett Addresses AYP A

On Thursday evening last, Dr. E. P. Scarlett, of Calgary, gave a very interesting address to members of the Y.P.S. and A.Y.P.A. and their friends on the present international situation. He mentioned particularly several factors having a very significant bearing on the war situation—the Russian-German and the Anglo-Turkish treaties, and the value to Britain of the United States. He also stated that the present war was one of keen diplomatic action behind the scenes rather than one of fighting on the front. Refreshments were served after the address.

Wheat Pool Urge Further Payment

The Wheat Pools of Manitoba, Saskatchewan and Alberta recently joined, by resolution, the growing effort of the people in all parts of Canada to persuade the federal government, under the powers of the War Measures Act, to make a further payment before seeding time on wheat delivered to the Canadian Wheat Board from the 1939 crop. Their resolution has been forwarded by the central board in Winnipeg, to Hon. W. D. Euler, Minister of Trade and Commerce. Under the regulations governing payment in the normal way farmers would not receive this payment until July 31, 1940. "The pools fully realize the tremendous financial demands on the Dominion government treasury while Canada is at war," said Paul Brett, chairman, speaking for the board, "but many thousand farmers are unable to finance seeding operations and must receive assistance if agricultural production is to be carried on."

C. D. S.

The farce "Aunt Tillie Goes to Town", was written by Wilbur Braun with but one purpose in mind, that of providing the audience with some two and a half hours of steady laughter and enjoyment. Sure to meet with the approval of both young and old, this play tops all our previous comedy presentations.

The cast is working hard in its preparation, already many hours have been put in, but we feel and know that in the end it will be an outstanding achievement.

Arrangements have been made whereby the sponsoring of this play will be jointly between the Crossfield United Church and the High School. The dates have been set for Wed. April 10th and Wed. April 17th, in the U.F.A. Hall. However, if given the support we have received in the past, even two performances will give limited accommodations for the ones who will want to see it a second time, and there will be some, so watch for the ones selling tickets, and in the meantime we will have more next week.

CAN YOU HELP?

Any person or organization who wishes to assist the Red Cross by doing sewing or knitting in their spare time, is asked to call at the local committee rooms in the Fire Hall on Tuesday or Friday afternoons between 2 and 5 o'clock. The committee has a quantity of material and wool on hand to be given out for making up for war refugees. The need is urgent—can you help?

Among the divorce cases granted in supreme court at Calgary this week, Robert John Cann of Crossfield was granted a decree nisi by Mr. Justice W. C. Ives against Ora Bernice Cann, now residing in Florida. E. C. Collier acted for Mr. Cann.

Slight Error

William Smith obtained a job as gardener in a large house. The mistress took a great interest in the garden, and one day, seeing Smith rather busy, went up to him and said: "And how's my sweet-william this morning?"

Smith, rather taken aback, said: "Well, if it's going to be like that, call me Bill!"

LOCALS

Mrs. Emery spent the week-end visiting friends in the city.

Clarence and Miss Bertha Wall of Didsbury were Sunday visitors in town.

Mr. and Mrs. H. Fitzpatrick celebrated the 25th anniversary of their wedding last week-end.

Post Office wickets will be open between 10 and 11 a.m. on Good Friday and Easter Monday.

Mrs. Pullan is spending this week in Calgary visiting her son, Leonard and attending the Rebekah Assembly.

Mrs. G. D. Zang and young son, of Calgary, are visiting for a short time with Mrs. Zang's mother, Mrs. L. Overby.

The World of Wheat

By H. G. L. Strange

Observations on agriculture by eminent men go back as far as any writings of the human race. These recorded observations seem from the earliest times, with references to many of the same problems farmers still have to contend with today. The advice given by these renowned authorities, reiterated over and over, running like warp and woof throughout agricultural history, is basically the simple one of "Use good seed."

Here are a few extracts from these ancient writings:

"The Kingdom of Heaven is likened unto a man which sowed good seed in his field." — Math:13-24

"Thou shalt not sow thy field with mingled seed." — Leviticus 19-10 (about 900 BC)

"A good plant is not likely to grow from a bad seed." — Aristotle

"New seed is the best." — Theophrastus (about 300 BC)

"After two years, unless careful selections were made, crops tended to revert to a common type." — Pliny (about 50 AD)

And finally the most excellent piece of advice, so timely for farmers today, and particularly at this time of year—

"Choose especially the varieties which are commonly agreed to be the best for these districts. Remind the overseer of the necessity on rainy days of cleaning seed." — Cato (about 200 BC)

Following factors have tended to raise price: The Rumanian wheat acreage is estimated at 15.6% less than a year ago — Shanghai wheat prices increase due to reduced domestic supplies — U. S. Wholesale Commodities Indices show a slight rise—Recent reports suggest the probability of considerable winter killing in Russia.

Following factors have tended to lower price: U. S. Private crop reports estimate winter wheat crop is 5 to 7 percent better than December forecasts — Estimates for rye, barley and oats in Argentina have been increased — Exports of fresh pears and grapes from U. S. reached an all-time high during the 1938-39 season.

Thursday March 14th, 1940

As time passes into history we often look back over that trail we left behind, picking out the good and the bad spots that are outstanding in our lives, with these as caution posts in our present plans we should be able to press forward with a better view of the future, a better knowledge of what is needed for the advancement of Canada, our province, and the individual.

Good government is essential in any land, if progress and a reasonable amount of prosperity is expected.

On election day, a week from today you will have the opportunity to assist in electing your representative in the government. Will you, with the experience of those years gone by step up and assist to bring about better times for us all.

Voters should remember when marking their ballots on March 21st that ballots for the provincial election must be marked with a "1" for your choice of candidate.

SEED TREATMENT IMPORTANT

Seed grain should be treated for smut in all cases. The cost of treatment is small and in no other way can the farmer be assured of preventing losses from this disease. The best fungicide to use for treating grain is a mercurial dust such as Ceresan or Leytosan. These dusts are most easily applied with a mechanical seed grain treaters, and because of their special characteristics, the grain may be treated when it is cleaned, thereby eliminating the necessity of handling it again during the rush of spring work.

The Department of Agriculture recommends a mercurial dust such as the above, at the rate of one-half ounce for each bushel of grain. If Formalin must be used, it should be employed only in the proper proportions of one part Formalin in 320 parts of water (1 pint Formalin to 40 gallons of water.) A high concentration of Formalin is dangerous as it may injure the germination of the grains.

Seeds and Plants Available at Olds School

A circular has been issued by the Olds School of Agriculture Experimental Union listing various seeds and plants of field and garden which are available to members. The list includes three types of potatoes, grass and vegetable seeds, flower plants and oak, plum and apple seedlings.

The annual membership fee is \$1.00. Orders will not be accepted after April 6. Anyone interested should write the Experimental Union for full particulars.

The March of Time film, "Canada at War" was banned in Ontario because provincial leaders did not want their criticisms of the Liberal record disproven, declared Hon. C. D. Howe, Minister of Transport, in a campaign address. In making this counter-charge, Mr. Howe inferred the film displayed to advantage the accomplishments of his party. It was these same persons, said Mr. Howe, whose criticisms precipitated the federal election.

RADIO PINIONS

ANNEWS by John N. Hunt
PUBLICITY DEPARTMENT CFAC

MUTINY ON THE HIGH SEAS

Once again, this extraordinary popular radio show, "Mutiny on the High Seas" will come to our radio audience each Thursday night from 6:30 to 7:00 o'clock, beginning March 14th over CFAC.

We feel that at this time when adventures on the high seas are being brought to our attention daily, the exciting and thrilling incidents in past history will have a particular appeal to all our listeners. This show deals with such adventures as Captain Kidd Captain Morgan, and some of the outstanding swash-buckling seafarers of the olden days. We know that this show will be welcomed back to the air lanes and that our audience will want to follow every episode of it, so be sure to tune in to CFAC each Thursday at 5:30 p.m. for the most exciting story on the radio air waves.

For those who appreciate the finer and more classical forms of music, CFAC offers, starting Monday, March 18th, "Thrills from the Great Operas", with such singers as Donald Novis, etc. This show will come to you at 8:45 p.m. each Monday evening and will undoubtedly attract a great deal of attention

REAP Bigger, Better CROPS
USE
REGISTERED SEED

GOOD seed is the first requirement for bigger, better yields. That is why it pays to use Registered Seed. Registered Seed is pure and ensures crops of greater yield, higher quality and better grade. Registered Seed is sold only in sealed containers, government-tagged, and government-inspected. It requires no cleaning.

It pays to use Registered Seed!

For information regarding sources of supply of approved varieties write to—the District Supervisor, Plant Products Division of the Dominion Department of Agriculture for your district, the nearest Dominion Experimental Farm, the Provincial Department of Agriculture, or the nearest Agricultural College.

Food supplies are important in wartime—
This year plant and raise only the best!

Hollywood, Feb. 26 — Jack Benny's duds on the slippery slopes of the Yosemite ski trail, currently occupying his Sunday broadcasts as heard over CFAC for the past few Sundays at 5 p.m., actually occurred. Jack, Mary Livingston, and writers Bill Mor-

row and Ed Beloin, hid themselves to Yosemite Park immediately after the benefit broadcast from Oakland to indulge in some winter sports and prepare the following week's scripts. Jack's attempt to soar off a hillside with skis instead of wings, provided the comedy plot the writers were looking for, although Benny didn't think the experience as amusing at the time.

Household Hints

Shamrocks, pipes and other suitable decorations are proper for the Saint Patrick's Day dinner table. A touch of green is desirable in or on one or two of the foods. And by all means serve new dishes: tastes that will honor the good old Saint and please the guests as well. Here is a suggestion or two.

Minted Pineapple Gems

Drain a 14 ounce can of Hawaiian pineapple gems—spoon-size cubes cut from the juiciest part of the fruit. To the syrup add green vegetable coloring, drop by drop until the desired color. Add peppermint extract until syrup is of desired flavor. Stir well, heat and add pine apple gems. Simmer until gems have absorbed most of the syrup and taken on a green color. Use as a garnish for the center of a crown roast of lamb or serve from a tray of assorted relishes with a meat course.

Fish in Aspic

1 tablespoon gelatine
1-4 cup cold water
Sprinkle gelatine on water. Add:
1-4 cups hot water
1-4 teaspoon salt
1 tablespoon sugar
6 tablespoons lemon juice
Few drops green veg. coloring
Cool. Add:
1-2 cups any cooked, flaked fish (salmon, tuna lobster etc)
Turn into mold and chill until

COAL A GOOD STOCK OF Drumheller COAL LUMP and STOVE COAL For your Fuel requirements, call 37 Emerson's Lumber Yard

firm. Unmold and decorate with lettuce hearts and fancy lemon garnishes. Serve with Tartare sauce.

Do you find it a little harder than usual to choose healthful, appetizing and filling dishes for the Lenten dinners? Here are two recipes that should help. Best of all, they are good after Lent is over, too:

Limas with Pimientos

2 cups cooked dried Limas
1-2 cup shredded pimientos
1-2 cup buttered bread crumbs
2 tablespoons grated cheese
1-2 cups this white sauce
2 tablespoons tomato catsup
1-2 teaspoon salt
1-4 teaspoon paprika
Combine Limas, white sauce, pimientos, seasonings and catsup. Place in a baking dish and sprinkle bread crumbs and cheese over top. Bake in a moderate oven (350 degrees F.) 30 minutes.

Cod Baked with Tomato Sauce

1 package quick-frozen cod fillets
2 tablespoons chopped onion
2 tablespoons finely diced celery
2 tablespoons shredded green pepper
4 tablespoons butter
1 tablespoon flour
1-2 cups canned tomatoes
1-2 teaspoon salt, Dash of pepper
1-2 teaspoon sugar, 1-4 bay leaf
1 tablespoon chopped parsley
Cut fillet (frozen or thawed) in to 4 pieces and place in buttered shallow baking dish. Sauté onion, celery, and green pepper in butter until tender; add flour and mix well. Add remaining ingredients and cook slowly 10 to 15 minutes, stirring occasionally. Pour over fish and bake in a hot oven 25 or 30 minutes or until fish is tender. Serves 4.

One tiny drawer in your desk or spindle on the cupboard door should be devoted to things you want to remember. Here one may place a slip of paper with a reminder of an engagement, a note about a book which has been loaned, a job which must be done, bills to be paid or a letter to be answered. Once deposited here, they must be looked over almost daily or their value will be lost. With such a memorandum and such a practice, one need not worry for fear she will miss anything.

SIR HUBERT WILKINS PLANS ARCTIC EXPLORATION

Russian planes could bomb Canadian cities including Edmonton, was the opinion expressed by Sir Hubert Wilkins, Australian explorer in an interview in Edmonton, last week. He said it was mechanically possible to fly over the Arctic from Murmansk, but thought it would never happen because the raiders would have to be suicides "as they could never return to their base."

Sir Hubert also announced that he is planning another attempt to explore the north region in a submarine and has almost decided to build his undersea craft in Edmonton. Financing the new venture himself, he hopes to interest Can-

IN THE ANCIENT ROMAN EMPIRE

In 400 B.C. beer was popular with the Armenians, while during the first century of the Christian era the Germans and the natives of West Europe (Spain and Gaul) improved the process, and beer made from barley and malt was the popular drink. The Romans were also brewers of Beer. Barley was known to them says Virgil, who uses it in the plural form "hordes". Beer and vinegar were the drinks of Caesar's soldiers.

Keep Canada's War Effort United!

Experienced Leaders are

VITAL for VICTORY

In six months of war the Mackenzie King Administration has set an unprecedented record of getting things done without fuss and fury. Under its steady leadership, Canada has gone ahead on all fronts—war, economic and domestic. With clear heads and with feet on the ground, this group of purposeful men is making every ounce of Canada's weight felt in our fight for freedom. What it has done has been done thoroughly; there has been no loose thinking; no half-measures; no waste of men, money or materials.

Some of the Mackenzie King Administration Wartime Accomplishments

It united Canada as never before—Every province is heart and soul behind the Empire's war effort this time, thanks to the Administration's truly national policies.

The First Division, completely equipped, has been sent overseas to a Mother country prepared to receive it.

The Second Division is recruited, equipped and ready to go over.

The great Empire Air Training Scheme—sponsored and mainly financed by Canada, has been launched on a planned and ordered basis.

Naval Defence for both East and West Coasts including Air Force, Mine Sweepers and Convoying, has functioned efficiently since the outbreak of War. Of it, a Senior British Naval Authority has said: "No finer work is being done anywhere by the Royal Navy itself."

Price Control of all commodities, including such vital necessities as wool and sugar, has been established, with prices pegged low for the poor man. The profiteer is out, and will be kept out—in marked contrast to the free-for-all of the last war.

Shipping Control and Foreign Exchange Control are firmly established on sound lines and are functioning smoothly and effectively.

A \$200,000,000 War Loan was over-subscribed within two days of its launching, a record that proves public confidence. Its reasonable rate of 3½% contrasts with 5½% tax-free rate of the last war.

Political and Private Patronage has been stamped out: merit is the sole basis for selection or promotion in our armed forces.

Great Britain's war financing problems have been lessened through the co-operation of the Canadian Government.

War Contracts totalling well over \$100,000,000 have been placed, stimulating every branch of Canadian industry.

Canadian employment has hit an all-time high owing to these orders and to good internal business conditions.

Armament deliveries are approaching full-speed: aeroplanes, Bren guns, tanks, artillery accessories, ships—all coming forward in impressive quantities.

Large purchases of Canadian wheat,—preventing a serious wheat glut—have been arranged through a special mission sent to London by the Mackenzie King Administration.

5,600,000 pounds of bacon will be shipped to Great Britain each week, as well as large quantities of flour and fish.

Huge shipments of steel and other materials essential to the conduct of the war have been arranged for.

Make Your Vote Support Canadian Unity

Such a record simply didn't just happen. It resulted from the efforts of a strong administration working on behalf of a country united in all its parts as never before. And this singleness of purpose—conspicuously absent in 1914—is due to the vision, understanding and drive of individual Canadian and Empire-minded Statesmen who back the Empire's participation in the war with their eyes wide open and with full determination to play their parts to the full.

We appeal to the people of Canada for the support which is essential to carry on and complete a task, the groundwork for which has been laid carefully, soundly, wisely... with foresight, determination and resolute courage.

On March 26th show your faith; vote for the Candidate supporting
Mackenzie King and help make sure there can be no break in
Canada's steadfast stand in these critical times.

FORWARD WITH MACKENZIE KING

False Hopes

An Irishman tells this story about an extremely mean farmer who had been to a fair and bought a very second hand horse. After stabilizing it, he gave it some feed. The animal refused to eat. A little later it similarly refused water.

The farmer's eyes gleamed hopefully. "By golly," he said excitedly "If only this nag's a good worker, what a bargain I've made!"

WHO KNOWS?

The theory that Chinook winds are caused by the warmth of the Japanese current in the Pacific was badly denied by Bruno Engler noted Swiss ski instructor at Banff. Mr. Engler thinks the friction caused by winds passing through narrow valleys accounts for the warmth of Alberta's winters. He said similar phenomena in Switzerland are called "fohn" winds.
